Message from the President

There were times when Bermuda had an entry of over 400 dogs with the majority of the dogs coming from the USA or Canada.

Airlines were far more accommodating and it wasn't unusual for professional handlers to bring 10 or 20 dogs with them to compete in Bermuda. We have had some very illustrious international handlers in Bermuda in the past and they brought some top winning American and Canadian dogs with them to the Bermuda Shows.

With the economy and restrictive policies for carrying dogs on many of the airlines, the number of international entries has been sadly reduced. However, local dog enthusiasts have done their utmost to make sure that the shows can continue and although we have a much reduced overseas entry those international dogs that do come to Bermuda most certainly keep the quality of competition high and keep Bermudians on their toes.

Recently the show giving club experienced some difficulty and a small group of volunteers asked the Bermuda Kennel Club for assistance to ensure that the shows could continue. This group of volunteers has pulled out all the stops to make sure that the shows could continue and the Bermuda Kennel Club is indebted to their enthusiasm and support.

Congratulations to the new Show Committee – you have all done a wonderful job to ensure that the shows will continue.

The Bermuda Kennel Club would also like to thank the Dog Training Club of Bermuda who willingly agreed to share their venue for agility trials and include the conformation shows as well.

We would also like to thank Somersfield Academy who have been so accommodating and allowed us to have our shows and trials in such a wonderful location.

Only dogs entered in the Official Classes will be counted as being present for the purpose of Championship ratings but additional points in accordance with the points scale will be awarded for any Champions of Record subsequently defeated directly or indirectly in Best of Breed or Best of Opposite Sex Competition. In computing the Championship Points for a Breed Class, a dog that is disqualified or excused during judging shall not be counted as being present at the Show. BKC rules Ch. 7, Sec. 2

Breed Classification

Dogs may be entered in any of the following classes for which they are eligible:

1. **Puppy Class 6-9 months:** Champions in any country excluded.
2. **Puppy Class 9-12 months:** Champions in any country excluded.
3. **Puppy Class 12-18 months:** Champions in any country excluded. To be eligible for Best Puppy Awards, puppies must be entered in the Puppy Classes. Puppies entered in the Junior & Senior Puppy Classes must be within the age limit on the day of the Show.
4. **Novice Class:** for dogs which have not, prior to the date of closing of entries, been awarded one or more points toward their Bermuda Championship title. Champions in any country excluded.
5. **Bred By Exhibitor Class:** for dogs owned wholly or in part and handled in the ring, by the person or the spouse of the person who was the Breeder or one of the Breeders of Record. Champions in any country excluded.
6. **Open Class:** for dogs whose owners have not been notified officially by the Bermuda Kennel Club that the dog has earned the required number of points, under the conditions prescribed in Ch. 7, Sec. 1, For the award of a Bermuda Championship. Champions of record in any other country must be entered in this class.
7. **Best of Breed Competition:** Bermuda Champions of record only shall be entered in this competition. Bermuda Champions that are over 7 years old and have been spayed or neutered may be entered in Best of Breed Competition.

Transfer of entry to best of breed competition

Note: BKC rules Ch. 11, Sec. 10. Where, according to the records of its owner or handler, a dog entered in a Show or a series of Shows has completed the Points Requirements for its Championship after the closing of entries, but this has not yet been confirmed by the Bermuda Kennel Club, the dog may, upon request to the Show Superintendent, be transferred from the Official Classes entered, to Best Of Breed competition. Such request must be made on a transfer of entry form provided by the Bermuda Kennel Club, and must be filed with the Show Superintendent not less than one half hour prior to the start of all judging at the subsequent Show(s) of the series. Should the owner or handler be mistaken in computing the dog's points and the dog compete in Best Of Breed competition before it actually has the required points, any wins at that show(s) will be automatically canceled. No dog may otherwise be

transferred to another class.

Breed - Unofficial Classes

1. Locally owned class: for dogs that are not Bermuda Bred, but are owned wholly or in part by a permanent resident of Bermuda. To be eligible for Best Locally Owned Awards dogs must be entered in the Locally Owned Class and must also be entered in an Official Class.

Scale of Points

Best in Show - 5 points

Group First - 4 points, Group Second - 3 points, Group Third - 2 points, and Group Fourth - 1 point

Unofficial Classes

The calculations for the Best Bermuda Bred, Best Puppy & Best Locally Owned Awards are based on the total number of wins in these respective classes. In the event of a tie; the decision will be based on the amount of dogs defeated.

In order to use the title Bermuda Champion, a dog must be registered individually in the records of the Bermuda Kennel Club.

Registration forms and dog show rules will be available on the show grounds from 8:30am to 10:00am or can be obtained from the Bermuda Kennel Club, P.O. Box 1455 Hamilton HM FX, Bermuda.

Cancellations

BKC rules ch.19 Sec 1. If a dog is shown in the name of a person who is not recorded as the owner of the dog, all wins made by the dog when shown in the name of a person in whose name a dog is not recorded in the records of the bermuda kennel club shall be cancelled unless application for the transfer of ownership is made within 30 days after the last day of the show.

Group I: Sporting Dogs

Naturally active and alert, Sporting dogs make likeable, well-rounded companions. Members of the Group include pointers, retrievers, setters and spaniels. Remarkable for their instincts in water and woods, many of these breeds actively continue to participate in hunting and other field activities. Potential owners of Sporting dogs need to realize that most require regular, invigorating exercise.

What are *you* feeding your dog?

We know you care about your dog, it's obvious. What is not so obvious is what is in his food. Remember we eat from a variety of sources everyday whilst for most dog's, nutrition is generally from just a few sources—his dry dog food, his canned food and the occasional healthy treat. Since his main nutrition comes from that bag of dog food you really need to make sure you are feeding the best.

Go ahead and read the ingredient list on your dog food.

Group II: Hound Breeds

Most hounds share the common ancestral trait of being used for hunting. Some use acute scenting powers to follow a trail. Others demonstrate a phenomenal gift of stamina as they relentlessly run down quarry. Beyond this, however, generalizations about hounds are hard to come by, since the Group encompasses quite a diverse lot. There are Scottish Deerhounds, Norwegian Elkhounds, Salukis and Beagles, among others. Some hounds share the distinct ability to produce a unique sound known as baying. You'd best sample this sound before you decide to get a hound of your own to be sure it's your cup of tea.

Canine Hydrotherapy

...a proven method of effective rehabilitation.

What is Hydrotherapy?

Hydrotherapy is a water based physical therapy for rehabilitation following surgery or injury or long term, chronic, or degenerative problems. The therapy combines exercise in water with a hygienic treadmill.

How does Hydrotherapy work?

Hydrotherapy enables low impact exercise in a controlled environment. The speed, water temperature and depth can be customized to meet each dog's requirement.

Warm water promotes blood flow to the muscles which helps to heal, aids in relaxation and improves pain management.

Water depth allows us to target specific joints in the body.

Buoyancy aids in rehabilitation of weak muscles and painful joints by reducing weight-bearing on joints.

Hydrostatic pressure provides constant pressure to an area or limb for decreasing swelling and improving circulation.

A stylized illustration of a dog, possibly a Weimaraner, walking in water. The dog is shown in profile, facing right. Its body is dark grey, and its legs are a lighter grey. The water is represented by a solid blue area with a white scalloped border at the top. The dog's head is above the water, while its body and legs are submerged.

Group III: Working Dogs

Dogs of the Working Group were bred to perform such jobs as guarding property, pulling sleds and performing water rescues. They have been invaluable assets to man throughout the ages. The Doberman Pinscher, Siberian Husky and Great Dane are included in this Group, to name just a few. Quick to learn, these intelligent, capable animals make solid companions. Their considerable dimensions and strength alone, however, make many working dogs unsuitable as pets for average families. And again, by virtue of their size alone, these dogs must be properly trained.

Group IV: Terrier Breeds

People familiar with this Group invariably comment on the distinctive terrier personality. These are feisty, energetic dogs whose sizes range from fairly small, as in the Norfolk, Cairn or West Highland White Terrier, to the grand Airedale Terrier. Terriers typically have little tolerance for other animals, including other dogs. Their ancestors were bred to hunt and kill vermin. Many continue to project the attitude that they're always eager for a spirited argument. Most terriers have wiry coats that require special grooming known as stripping in order to maintain a characteristic appearance. In general, they make engaging pets, but require owners with the determination to match their dogs' lively characters.

Group V: Toy Dogs

The diminutive size and winsome expressions of Toy dogs illustrate the main function of this Group: to embody sheer delight. Don't let their tiny stature fool you, though, many Toys are tough as nails. If you haven't yet experienced the barking of an angry Chihuahua, for example, well, just wait. Toy dogs will always be popular with city dwellers and people without much living space. They make ideal apartment dogs and terrific lap warmers on nippy nights. (Incidentally, small breeds may be found in every Group, not just the Toy Group. We advise everyone to seriously consider getting a small breed, when appropriate, if for no other reason than to minimize some of the problems inherent in canines such as shedding, creating messes and cost of care. And training aside, it's still easier to control a ten-pound dog than it is one ten times that size.)

Group VI: Non-Sporting Breeds

Non-sporting dogs are a diverse group. Here are sturdy animals with as different personalities and appearances as the Chow Chow, Dalmatian, French Bulldog, and Keeshond. Talk about differences in size, coat, and visage! Some, like the Schipperke and Tibetan Spaniel are uncommon sights in the average neighborhood. Others, however, like the Poodle and Lhasa Apso, have quite a large following. The breeds in the Non-Sporting Group are a varied collection in terms of size, coat, personality and overall appearance.

Group VII: Herding Dogs

The Herding Group, created in 1983, is the newest AKC classification; its members were formerly members of the Working Group. All breeds share the fabulous ability to control the movement of other animals. A remarkable example is the low-set Corgi, perhaps one foot tall at the shoulders, that can drive a herd of cows many times its size to pasture by leaping and nipping at their heels. The vast majority of Herding dogs, as household pets, never cross paths with a farm animal. Nevertheless, pure instinct prompts many of these dogs to gently herd their owners, especially the children of the family. In general, these intelligent dogs make excellent companions and respond beautifully to training exercises
