Welcome from the President

How time flies! It is time again for our annual shows. We are continuing our tradition of fun and competition.

Welcome to all of our competitors but especially to our foreign visitors, as we understand and appreciate the effort and expense that it takes for you to come to a Bermuda dog show.

The Show Committee has worked very hard to put on a first class show. On behalf of The Bermuda Kennel Club, I would like to thank the Committee members for a job well done - with a very special thanks to Carole Havercroft and Kathy Williams for all of their time and effort.

We said good-bye to Jane Taylor this year. She assisted with the catalogue preparation, checking the entries etc., etc. for many years. She will be a big miss!

Again this year, we not only have conformation shows but also obedience and rally events sponsored by the Dog Training Club and IDEA. These clubs have also put in an extraordinary amount of effort to be able to offer these trials.

All of the clubs are run by volunteers, without them none of this would be possible. Thank you all.

Somersfield Academy has opened their grounds to us so that we can hold our shows and trials. These grounds are perfect for us. On behalf, of the various clubs, I wish to express The Bermuda Kennel Club's sincere thanks.

For the third year, these conformation shows are Crufts qualifiers. The Group Winners, Best Puppy in Show and Best Veteran in Show will qualify for Crufts.

Next year's show will be held in late October. We hope to see you again!

Have a great show and good luck to all of you!

Michael deFontes
President, The Bermuda Kennel Club

All Breeds	1	2	3	4	5	6	7

Points are based on the number of dogs present

Only dogs entered in the Official Classes will be counted as being present for the purpose of Championship ratings but additional points in accordance with the points scale will be awarded for any Champions of Record subsequently defeated directly or indirectly in Best of Breed or Best of Opposite Sex Competition. In computing the Championship Points for a Breed Class, a dog that is disqualified or excused during judging shall not be counted as being present at the Show. BKC rules Ch. 7, Sec. 2

Breed Classification

Dogs may be entered in any of the following classes for which they are eligible:

1. **Puppy Class 6- 9 months:** Champions in any country excluded.
2. **Puppy Class 9-12 months:** Champions in any country excluded.
3. **Puppy Class 12-18 months:** Champions in any country excluded. To be eligible for Best Puppy Awards, puppies must be entered in the Puppy Classes. Puppies entered in the Junior & Senior Puppy Classes must be within the age limit on the day of the Show.

Such request must be made on a transfer of entry form provided by the Bermuda Kennel Club, and must be filed with the Show Superintendent not less than one half hour prior to the start of all judging at the subsequent Show(s) of the series. Should the owner or handler be mistaken in computing the dog's points and the dog compete in Best Of Breed competition before it actually has the required points, any wins at that show(s) will be automatically canceled. Canine Hydrotherapy

...a proven method of effective rehabilitation.

What is Hydrotherapy?

Hydrotherapy is a water based physical therapy for rehabilitation following surgery or injury or long term, chronic, or degenerative problems. The therapy combines exercise in water with a hygienic treadmill.

How does Hydrotherapy work?

Hydrotherapy enables low impact exercise in a controlled environment. The speed, water temperature and depth can be customized to meet each dog's requirement.

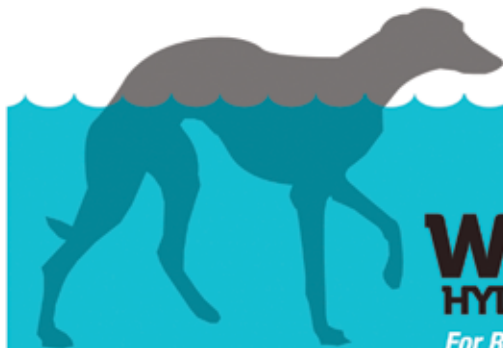

Warm water promotes blood flow to the muscles which helps to heal, aids in relaxation and improves pain management.

Water depth allows us to target specific joints in the body.

Buoyancy aids in rehabilitation of weak muscles and painful joints by reducing weight-bearing on joints.

Hydrostatic pressure provides constant pressure to an area or limb for decreasing swelling and improving circulation.

Group II: Hound Breeds

Most hounds share the common ancestral trait of being used for hunting. Some use acute scenting powers to follow a trail. Others demonstrate a phenomenal gift of stamina as they relentlessly run down quarry. Beyond this, however, generalizations about hounds are hard to come by, since the Group encompasses quite a diverse lot. There are Scottish Deerhounds, Norwegian Elkhounds, Salukis and Beagles, among others. Some hounds share the distinct ability to produce a unique sound known as baying. You'd best sample this sound before you decide to get a hound of your own to be sure it's your cup of tea.

Group III: Working Dogs

Dogs of the Working Group were bred to perform such jobs as guarding property, pulling sleds and performing water rescues. They have been invaluable assets to man throughout the ages. The Doberman Pinscher, Siberian Husky and Great Dane are included in this Group, to name just a few. Quick to learn, these intelligent, capable animals make solid companions. Their considerable dimensions and strength alone, however, make many working dogs unsuitable as pets for average families. And again, by virtue of their size alone, these dogs must be properly trained.

Group IV: Terrier Breeds

People familiar with this Group invariably comment on the distinctive terrier personality. These are feisty, energetic dogs whose sizes range from fairly small, as in the Norfolk, Cairn or West Highland White Terrier, to the grand Airedale Terrier. Terriers typically have little tolerance for other animals, including other dogs. Their ancestors were bred to hunt and kill vermin. Many continue to project the attitude that they're always eager for a spirited argument. In general, they make engaging pets, but require owners with the determination to match their dogs' lively characters.

Group V: Toy Dogs

The diminutive size and winsome expressions of Toy dogs illustrate the main function of this Group: to embody sheer delight. Don't let their tiny stature fool you, though, many Toys are tough as nails. If you haven't yet experienced the barking of an angry Chihuahua, for example, well, just wait. Toy dogs will always be popular with city dwellers and people without much living space. They make ideal apartment dogs and terrific lap warmers on nippy nights. (Incidentally, small breeds may be found in every Group, not just the Toy Group.

Group VI: Non-Sporting Breeds

Non-sporting dogs are a diverse group. Here are sturdy animals with as different personalities and appearances as the Chow Chow, Dalmatian, French Bulldog, and Keeshond. Talk about differences in size, coat, and visage! Some, like the Schipperke and Tibetan Spaniel are uncommon sights in the average neighborhood. Others, however, like the Poodle and Lhasa Apso, have quite a large following. The breeds in the Non-Sporting Group are a varied collection in terms of size, coat, personality and overall appearance.

Group VII: Herding Dogs

The Herding Group, created in 1983, is the newest AKC classification; its members were formerly members of the Working Group. All breeds share the fabulous ability to control the movement of other animals. A remarkable example is the low-set Corgi, perhaps one foot tall at the shoulders, that can drive a herd of cows many times its size to pasture by leaping and nipping at their heels. In general, these intelligent dogs make excellent companions and respond beautifully to training exercises
